Electronic Military Evaluations: Training Package

Section 6: What's Not Here?

Training Modules:

Section 1: Overview
Section 2: Changes in Evaluation Policy
Section 3: Changes in Evaluation Processing
Section 4: FCMP Portal Functions
Section 5: FCMP Evaluation Forms
Section 6: What does this version NOT have?
Section 7: Special issues
Section 8: Things to think about for a unit SOP/unit user manual
Section 9: AKO “My Forms” & Daily Business

Section 6 What does this version NOT have? (What else do users need?)

- Rating Schemes: Either a form that can be used to auto-fill support forms or a rating scheme created from evals in the system.
- An interface between the OER Senior Rater (SR) block check and appropriate SR profile database. If applicable, pop-up information available only to the SR about the SR's current profile.
- An interface between the OER and the Army Height and Weight tables.
- Specific Management Reports for S-1/Adjutants. The forms tracking feature of the forms page provides for management functions. Coming soon with the Army's Action Tasking System.
- Complete lockdown of all administrative information by the rated Soldier's or rating officials' electronic approval.
- Pulling of last thru date on file from ITAPDB for support form.
- Lockdown of information pulled from the authoritative database (ITAPDB). Meaning: you can pull the information but you can also change it once it is on the form. The long term goal is to have the information coming from ITAPDB to be 100% usable, at all times.
